

Demonstrate your capabilities further!

Congratulations on completing the second course in the Google Cloud Computing Foundations series! Continue your learning journey and enroll in the third course in the series: **Google Cloud Computing Foundations: Networking and Security in Google Cloud**.

To further demonstrate your capabilities in performing foundational infrastructure tasks, you now have the opportunity to earn a digital Google Cloud skill badge.

The labs you completed throughout this course were stepping stones to prepare you for the final **Challenge Lab in the Set Up an App Dev Environment on Google Cloud** skill badge. Follow the steps below:

1. [Enroll](#) in the Set Up an App Dev Environment on Google Cloud skill badge.
2. Complete any unfinished labs.
3. Complete the [Set Up an App Dev Environment on Google Cloud: Challenge Lab](#).
4. Earn your skill badge and [share on social media or your resume](#).
